

Photoshop

PS Plug-ins - When I try to 'Send Model to Photoshop' I get an Error 8800 alert. I'm on Windows 7 and Photoshop 64-bit CS4 Extended.

The problem is most likely that you are using the 64-bit version of Photoshop CS4 Extended. Strata Design 3D CX 6/7 and the PS Plug-ins are 32-bit.

If you install the Photoshop CS4, CS 5 or CS5.x Extended 32-bit version and then try the Send Model to Photoshop option, it should work for you.
