

StrataLive3D.Com

What is StrataLive3D.Com?

The StrataLive3D.com website makes it easy to publish interactive 3D content to the web, using Strata Live 3D CX 2.

Just like YouTube, your 3D project is published to StrataLive3D.com and from there, can be easily shared or embedded on other websites, blogs, and forums using an embed code. Or, you can use the service to privately show 3D content to clients or friends.

Once you purchase and install Live 3D CX 2, just create a free account on the website, and then use the Export > Direct to Web command from within Live 3D CX 2 to upload your content.
