

UV Editing

CX 7/7.5 - How do I use the new UV mapping features?

There are a number of resources to help you learn how to use the new UV editing features in Design 3D CX v7 and 7.5:

- The User Guide, which is available through the Help menu in Design 3D. See **Chapter 11 - UV Editing**.

- The StrataCafe's [Design 3D CX](#) forum is a good place to look for answers and ask questions about Design 3D CX and other Strata software.

- Several UV mapping tutorials are available at [Strata3DUniversity.com](#). Strata 3D University is a subscription website, however some tutorials are free.

- You can find free tutorials and demonstration videos about all of the new v7.5 features, including UV mapping, [here](#).

- Also see the tutorials in the [UV Mapping category](#) on Strata3DUniversity.com.
