Design 3D 7.x - is Render Vector available for version 7?

No, it is not. We had to make the decision to discontinue the Strata 3D Vector Plug-in as of August 1st, 2011 due to licensing issues with our technology partner on the product.

It's been a great addition to the product over the years. Rest assured that if you have an existing license to this plug-in it will continue to run in your copy of Design 3D CX 6.2 on Windows XP, Vista and 7 and in Mac OSX versions 10.6.8 and earlier.
