

## Distributing Artwork

### **Overlap Error - I'm trying to distribute a logo, but I keep getting an error: "There is no overlap between the selected objects and the selected panel."**

When distributing artwork for the first time, you will need to select the graphics that you want to distribute in the 2D view AND the source panel in the Enfold 3D View window.

The 'no overlap' error message indicates that you selected a panel in the Enfold 3D View, but in the 2D view there is no overlap between the selected panel and the selected art.

For more information, see the FAQ section of the Enfold User Guide, which is located in Illustrator in the Help Menu > Strata Enfold 3D CX > User Guide.
